- 1200 dpi Scanning
- Visioneer® OneTouch® Technology
- Visioneer Acuity Image Enhancement
- USB 2.0 Powered

Whatever and wherever you need to scan, Xerox has bought quality and ease of use to your fingertips. The Xerox® 7600i is powered by Visioneer OneTouch, a scanning utility that connects the buttons on the scanner with a powerful set of scanner settings, so that with one touch, your document is scanned automatically to email, Word, a printer or simply a file folder. The resolution, colour depth, file format and paper size are all preset, but of course can be changed at any time.

In addition to scanning directly to all popular destinations, Visioneer OneTouch also links the Xerox® 7600i with industry-leading document management software such as Microsoft® SharePoint®, DocuWare® and Xerox® DocuShare® – forming an easy-to-use workflow from paper to a selected destination.

Using Visioneer CONNECT, users are able to scan and automatically upload documents to popular cloud destinations such as Google Docs™, Evernote®, DropBox and others at the touch of one button.

Intelligent Image Correction

Take a random stack of documents from your desk, unless they came directly from a printer they probably have a few marks on them… highlighted notes, stamps, wrinkles or smudges. Visioneer Acuity enables your scanner to instantly improve the visual clarity of every document that you scan. Acuity intelligently adjusts every page after being scanned to a crisp and clean image. It not only improves the image quality for the human eye, but the computer's eye too. Since OCR results are directly related to the clarity of scanned text, OCR accuracy is dramatically increased when you improve image quality.

Powerful Technology

The Xerox® 7600i is a multi-purpose scanner for the user that has a wide variety of items to capture. Whether you are a professional photographer or just want to scan your family photos, the Xerox® 7600i is the perfect tool to indulge your creativity. With the 1200 dpi optical resolution, it captures the finest detail from your original images. It also works well for establishing a paperless office or creating colourful projects for print or internet use. Scanning photos and documents has never been easier!

Visioneer OneTouch

Visioneer OneTouch is an easy-to-use utility that connects the 7600i with a powerful set of scanner settings to greatly improve the efficiency of your workflow – so that with one touch your document is scanned automatically to email Word, a printer, or simply a file folder.

In addition to scanning directly to all popular destinations, Visioneer OneTouch also links the 7600i with industry-leading document management software, such as Xerox® DocuShare, Microsoft SharePoint and DocuWare – forming an easy-to-use workflow from paper to a selected destination. A Software Development Kit (SDK) is also available which provides the ability to develop specific links and integrate them into the Visioneer OneTouch control panel quickly and easily.

Visioneer Acuity

Visioneer Acuity enables your scanner to instantly improve the visual clarity of every document that you scan. The technology behind Acuity is clever, but for the user it's simple to achieve crystal clear results with the touch of a button.

Using advanced algorithms and dynamic thresholding Acuity will intelligently correct documents containing imperfections, improve quality of scanned images for archiving, increase OCR accuracy and save time.

Nuance® PaperPort®

Millions of professionals rely on PaperPort to save time and money by transforming paper documents into searchable digital documents. PaperPort combines the efficiency of document management, the convenience of superbly scanned documents and the power of creating PDF files, to bring a new level of operational proficiency to your organisation.

Nuance OmniPage® Pro

OmniPage Pro provides a precise OCR and layout retention solution, quickly turning scanned documents into editable, formatted text. The text can then be used in virtually any word processing, desktop publishing or web publishing program.

Text Searchable PDF

Transform volumes of paper or photos into organised digital files that can be quickly found, used and shared. In searchable PDF format, the user can instantly search documents for keywords or phrases. This provides additional archival benefits beyond traditional storage, and the widely accepted PDF format lets everyone view and print documents – on any computer.
